

Corbin School Community,

I wanted to take this opportunity to be sure that everyone is updated on the latest information:

- 1 The governor and KDE Commissioner have asked us to continue school closures until Friday, April 17. If circumstances allow, we will be back in school on April 20 as of now. Obviously, the Governor and Commissioner of Education will assess how things are going before giving us the full go ahead. We will be completing NTI (student work) packets and assignments for this new time off. We are also sending additional student work home through May 1. We are doing this in case we are out longer than the current scheduled April 20 return date.
- 2 Online delivery of school assignments will continue in the same way it has for the entire year. Paper packets will be available from 9:00am- 3:00pm beginning on April 2 at each school in the Main Entrance (safety vestibule) and at the Corbin Central Office. Folks who cannot get to a pick-up place can call the school to make other arrangements to secure a packet. When picking up a packet, we are asking parents to sign a pick-up sheet for their student.
- 3 We will continue to feed students from Corbin Elementary School and by way of home deliveries. **Starting Monday, March 30, these meals will be available on a Monday, Wednesday and Friday schedule.** On Monday and Wednesday, students will receive food for two days and on Friday, they will receive 3 days of food. If students need breakfast or lunch, and have not spoken to anyone, please call (606)528-1303 and we will share your address with our Food Service Department. Meals will be available during the Corbin scheduled Spring Break as well on the same 3-day schedule.
- 4 The state has granted COVID-19 emergency NTI days for each day we have missed since March 10, so these days are not scheduled to be made up.
- 5 The Kentucky Department of Education has formed a task force to study graduation implications and everything that goes along with this. I will keep you up-to-date with any information they share.
- 6 If you should have questions about anything in reference to school and/or your child, please call (606)528-1303.

Sincerely,

David Cox

Superintendent, Corbin Independent Schools
